

SPLICE TRAYS, SLEEVES & HOLDERS

UNIVERSAL SPLICE TRAYS

Leviton's 4" and 5" Universal Splice Trays provide complete protection for delicate fibers and splices. All trays accommodate a wide variety of splice holders and feature a clear polycarbonate cover. Mounting holes are protected by spacer blocks to prevent fiber damage during installation and removal. Compatible with Opt-X®, LightSpace™, and RDP enclosures.

FIBER SPLICE HOLDERS & SPLICE SLEEVES

Leviton's Splice Holders accommodate the entire range of Leviton Fusion Splice Sleeves plus devices from other manufacturers for complete design flexibility. Choose from 6-, 8-, and 12-fiber storage capacities in foam or solid plastic designs. Splice Sleeves are available in standard, slim, mini, and micro styles. Stainless steel strength member, polyolefin copolymer inner tube, and polyolefin outer tube provide reliable fiber alignment during shipping, handling, and installation.
