

ILSCO Two Bolt Connectors

RoHS
Compliant

TYPE IKS

Features

- Manufactured from high strength copper alloy
- Electro-tin plated
- Two bolt design
- Longer peened bolt
- Serrated spacer bar
- For copper conductor only
- Rated for 600 volts

Benefits

- Allows maximum conductivity and high breakage resistance
- Provides low contact resistance
- Allows maximum pressure to be applied directly to the conductor strands
- Permits a swivel action for easier installation
- Makes a secure connection
- Ensures reliability

Catalog Number	Wire Range		Dimensions
