

Opt-X® Enclosure System

72 Fibers Per RU (using LC)

The Opt-X Enclosure System is a flexible solution designed for easy installation and maintenance. Whether it's the Opt-X Ultra for data centers or 1000i and 500i for medium and small enterprise applications, each comes packed with features for better cable organization and maintainability. In addition, precision-molded Opt-X adapter plates, MTP® cassettes, and cable assemblies offer the flexible connection and storage options to meet any project need.

SPOTLIGHT

Cable Clamp Kits

Cable clamp kits minimize excessive pulling, bending, and crushing forces on cable. The Opt-X Enclosure-Mount Universal Clamp Kit makes it easy to identify cables, and decreases the need for tie-wraps inside the enclosure. The kit also creates a transition point from jacketed cable to buffered fiber or subunits. The Opt-X Rack-Mount Universal Clamp Kit is ideal for vertical strain relief and strain relief at the top or bottom of a rack/cabinet. Use it for installations with minimal vertical cable pathways and little space for an enclosure-mount cable clamp kit.
